

TEXAS NURSES ASSOCIATION HALL OF FAME HONOREE

SUE A. RANKIN, MSN, RN, CS, FNP

Ms. Rankin began her nursing career over 30 years ago at our local university, West Texas State. Of those 30 plus years she has been an advanced practice nurse for 25 years. She has dedicated her professional practice to children with a diagnosis of diabetes. She has made it her professional focus to empower parents and other support systems in the child's life through education, compassion and selfless service. She has provided diabetes education to hundreds of professionals, paraprofessionals and lay persons throughout the Panhandle to improve her patients' health outcomes for today and in the future. She has exemplified the role of the professional nurse time and time again in her open and accepting manner of all she encounters.
